

MIXING VALVES & ACTUATORS

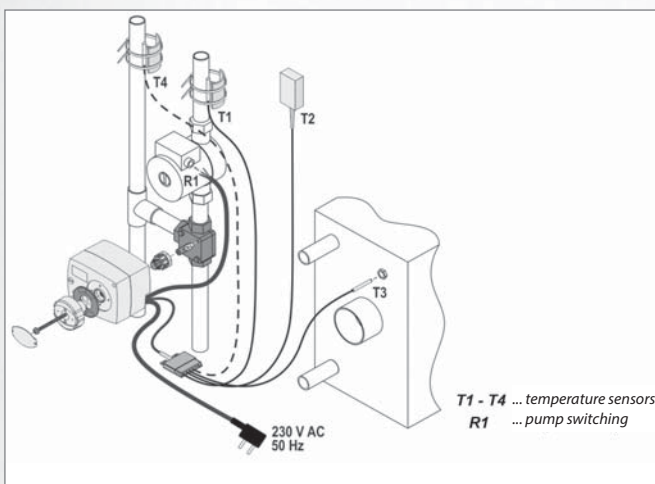

AHC actuators for mixing valves

Actuators designed to control mixing valves. The actuator w. weather compensated controller combines a mixing valve control with a heating system control based on weather compensated heating curve. A set of adapters permitting connection to mixing valves by various manufacturers is included in supply.

Models

Control	weather compensated
TORQUE	6 Nm
SHIFT TIME	120 s
AUXILIARY SWITCH	no
POWER SUPPLY	230V 50Hz
POWER INPUT	<3,5 VA
IP/PROT. CLASS	IP42/I
AMBIENT TEMPERATURE	5 to 40 °C
SENSOR	Pt1000 3 pc
CODE	16253

Wiring

Accessories

RCD2 Room Unit
Code: 16973

Technical Data

DIMENSIONS	84 x 101 x 85 mm
MATERIALS	
ACTUATOR COVER	Polycarbonate
POWER CABLE	PVC
POWER CABLE	
CROSS SECTION	3x 0.75 mm ²
LENGTH	2 m

Heating and cooling curves
